

KP Group partners with UAE-based Tristar Transport to develop green energy solutions

Synopsis

Indian-based KP Group and UAE's Tristar Transport have agreed to collaborate on the development of eco-friendly energy solutions across multiple regions such as the Middle East, Africa, Asia Pacific, America and Europe. The deal will combine each company's expertise to identify and execute renewable energy projects such as wind, solar, green hydrogen and green ammonia.

KPI Group has partnered with UAE-based **Tristar Transport LLC** to develop eco-friendly energy solutions across multiple regions, including the Middle East, Africa, Asia Pacific, America and Europe. The agreement involves the utilisation of the respective expertise of both parties to identify and execute renewable energy projects, such as wind, solar, green hydrogen and **green ammonia projects**, **KPI Green Energy** said in a BSE filing on Thursday.

"KP Group (KP) has executed a Joint Business Development Agreement with Tristar Transport LLC based out of UAE (Tristar) for the development of eco-friendly energy solutions across multiple regions, including India, Middle East, Africa, Asia Pacific, America, and Europe," the filing added.

This collaboration between KP and Tristar has the potential to significantly contribute to the development of **green energy solutions**, which are vital for the sustainable future of our planet, the company said.

Tristar is a fully integrated energy logistics business entity with a global presence in 29 countries across the regions mentioned above.

It has a proven track record of safety and service excellence in serving many clients nationally and internationally in the downstream oil and gas industry.
